

Edu-Therapy™ Solutions

A Cognitive Behavioural Process for Healing Grieving Hearts

BUILDING SUSTAINABLE MENTAL WELLNESS & RESILIENCY THROUGH INTEGRATED TREATMENT & TRAINING

- ♦ Grief and the conflicting emotions caused by loss are cumulative and most often have a growing negative effect on one's ability to participate fully in life
- ♦ Edu-Therapy™ gives participants a stable cognitive process to help themselves, community and client base
- ♦ Once Certified as an Edu-Therapy Specialist, in as little as 6 hours per week, one Specialist can bring mental resolution of the pain and sadness caused by loss to over 200 people per year
- ♦ Trained teams can escalate these numbers adding to the resiliency of the Community

HUMANS GRIEVE LOSS OR CHANGE OF ANYTHING HELD SIGNIFICANT

- ♦ Grief happens in many forms and has great potential to create emotional energy and negatively effect life
- ♦ Grief is an emotional experience that doesn't follow stages or a timeline... and it does not simply go away with time

IT'S THE ACTIONS WITHIN TIME THAT REDUCE AND ELIMINATE THE PAIN

- ♦ Edu-Therapy™ Certification is unique training that's designed specifically to assist all who wish to help those with unresolved loss, deal with pain and reclaim a productive place in the mainstream of their lives

WHO SHOULD ATTEND

- ♦ Mental Health and Wellness Workers
- ♦ Addiction Counsellors
- ♦ Educators and Youth Workers
- ♦ Family and Victim Service Workers
- ♦ All interested Groups and Individuals

**HELP YOURSELF.
HELP OTHERS.
HELP YOUR COMMUNITY.**
